

First: What the website must *do* (MVP clarity)

The website is **not just informational**. It must actively help me:

1. **Win clients (NGOs, companies, government)**
2. **Show credibility + expertise**
3. **Sell training & consultancy services**
4. **Capture leads (emails, inquiries, partnerships)**
5. **Introduce ZETRC Academy (digital learning)**

If it doesn't do these 5 things, it's not serving my business.

Core MVP Website Goal (refined)

the website's main job:

Convert organizations and partners into paying clients or leads by clearly showing ZETRC's practical impact in agriculture and environmental sustainability.

Recommended MVP Website Structure (Simple & Powerful)

Don't overbuild. Start with **5 pages only**:

1. Home Page (MOST IMPORTANT)

This is your conversion engine.

Sections:

- Hero (your one-liner)
 - What you do (clear + simple)
 - Services (3 main offers)
 - Who you serve
 - Proof (even if small—pilot work, experience)
 - Call to Action (VERY IMPORTANT)
-

2. About Page

Build trust.

Include:

- Your mission
 - The problem you're solving
 - Your “bridge the gap” positioning
 - Founder story (very important for fellowships)
-

3. Services Page

Break into 3 clear offers:

A. Training Programs

- Climate-smart agriculture
- Environmental safety
- Compliance

B. Consultancy

- Risk audits
- Sustainability advisory

C. ZETRC Academy

- Online learning
 - Certifications
 - Subscription model
-

4. ZETRC Academy (Landing Page)

Even if it's not built yet.

Include:

- “Coming soon” or early access
- Benefits
- Signup form

5. Contact / Work With Us Page

This is your **money page**.

Include:

- Inquiry form
- “Request Proposal” button
- Email + WhatsApp (very important in Africa context)

Your Homepage (Draft Copy – MVP Ready)

Here’s a strong version based on your JTBD:

Hero Section

Headline:

Turning Agricultural and Environmental Knowledge into Real-World Impact

Subheadline:

ZETRC helps organizations implement practical, climate-resilient solutions that improve productivity, reduce risk, and create long-term value.

CTA Buttons:

- Work With Us
- Request Proposal

What We Do

We bridge the gap between technical knowledge and real-world implementation in agriculture and environmental sustainability.

Our Services

1. Practical Training Programs

Hands-on training in climate-smart agriculture, environmental safety, and compliance.

2. Consultancy & Advisory

We help organizations assess risks, improve sustainability, and implement effective solutions.

3. ZETRC Academy

Digital learning platform providing accessible, expert-led courses and certifications.

📄 PART 1: FULL WEBSITE CONTENT (Ready to Copy-Paste)

🌐 1. HOME / LANDING PAGE

Hero Section

Headline:

Practical Agriculture Training for Better Yields and Income

Subheadline:

ZETRC helps farmers, organizations, and communities apply climate-smart agriculture through simple, practical, and locally relevant training.

Buttons:

🔗 Join Pilot Training

🔗 Work With Us

What We Do

We bridge the gap between agricultural knowledge and real-world farming.

Our training focuses on:

- Climate-smart agriculture
 - Soil health and productivity
 - Crop management
 - Income-generating processing techniques
-

Who This Is For

- Small-scale farmers
 - Youth in agriculture
 - Farmer groups and cooperatives
 - NGOs and development organizations
-

How It Works

1. Sign up for the training
 2. Access lessons on your phone
 3. Learn through videos and voice notes
 4. Complete simple practical tasks
 5. Receive feedback and improve
-

Why Join

- Learn practical skills you can apply immediately
 - Improve yields and income
 - Training in simple language
 - Designed for real farming conditions
-

Call to Action

Ready to start learning?

🔗 [Join the Pilot Training](#)

🔗 [Request a Proposal \(for organizations\)](#)

🎓 2. TRAINING PAGE (Core MVP Page)

Title:

Pilot Training Program: Climate-Smart Agriculture

Overview

This pilot training is designed to help farmers improve productivity, adapt to climate change, and increase income using simple, practical methods.

What You Will Learn

Module 1: Climate-Smart Farming Basics

Understand weather changes and how to adapt

Module 2: Soil Health & Productivity

Improve soil using low-cost techniques

Module 3: Crop Management

Better planting, spacing, and care

Module 4: Post-Harvest Handling

Reduce losses and improve quality

Module 5: Basic Processing for Income

Turn crops into higher-value products

How Training Is Delivered

- Mobile-friendly website
 - Videos and voice notes
 - Simple explanations
 - Local language support (coming soon / optional)
 - Practical assignments
-

CTA

 [Start Training](#)

 [Join via WhatsApp](#)

3. TRAINING HUB (Inside Experience)

Welcome Page

Welcome to your training.

Choose your language:

- English
- (Optional) Local Language

☞ Start Module 1

MODULE PAGE TEMPLATE (Repeat for all modules)

Title: Module 1 – Climate-Smart Farming Basics

1. Introduction

Short explanation (2–3 sentences)

2. Watch or Listen

- Video (embedded)
- OR Voice note

3. Key Points

- Simple bullet points
- Keep it VERY short

4. Practical Task

Example:

“Observe your field and identify one climate-related challenge.”

5. Submit Assignment

☞ Submit via form OR WhatsApp

6. Feedback

- Was this helpful? (Yes/No)
- What was difficult?

☞ Mark as Complete

✉ 4. CONTACT / WORK WITH US PAGE

Title:

Work With ZETRC

For Organizations

We provide:

- Training programs
- Consultancy
- Climate and environmental advisory

☞ Request a Proposal

For Farmers

☞ Join Training

☞ Contact us on WhatsApp

🌀 PART 2: USER JOURNEY (This is CRITICAL)

Here's exactly how your users will move:

👣 Step-by-Step Flow

1. User lands on website
 2. Clicks "Join Pilot Training"
 3. Fills simple form (Name, Phone, Location)
 4. Redirected to:
 - ☞ WhatsApp group OR Training Hub
-

Inside Training:

5. User starts Module 1
 6. Watches/listens
 7. Completes task
 8. Submits assignment
 9. Moves to next module
-

After Training:

10. Gives feedback
 11. You analyze:
 - Engagement
 - Completion
 - Understanding
-

💡 THIS is what validates your MVP.

✂️ □ PART 3: HOW TO BUILD THIS (Step-by-Step)

🔧 Option 1: Easiest Stack (Recommended)

1. Website Builder

Use:

- **Wix** (easiest)
 - OR
 - **WordPress**
-

2. Training Content

- Videos → YouTube (unlisted)
- Voice notes → upload as audio files

3. Forms (IMPORTANT)

Use:

- Google Forms for:
 - Sign-up
 - Assignment submission
 - Feedback

4. WhatsApp Integration

- Create a WhatsApp group
- Add link to website

5. Training Hub Setup

You have 2 easy options:

◆ OPTION A: Wix Pages (Simple)

Create:

- Page: Training Hub
- Page: Module 1
- Page: Module 2
- etc.

◆ OPTION B (SMART): Notion + Website

Use:

- Notion → create modules
- Convert to website using:
 - Super.so or similar

This is VERY fast and clean.

III PART 4: WHAT YOU TRACK (MVP SUCCESS)

Track ONLY these:

- Number of sign-ups
 - Number who start training
 - Number who complete modules
 - Assignment submissions
 - Feedback responses
-

⚠️ FINAL STRATEGIC ADVICE

Your idea is strong—but your success depends on this:

- ☞ Keep it SIMPLE but REAL
- ☞ Focus on learning experience, not tech
- ☞ Make it mobile-first (most important)
- ☞ Use WhatsApp heavily
